SUBJECT: REQUEST FOR ADDITIONAL INFORMATION

Dear Mr. Kozma:

This refers to the letter dated December 12, 2014, from Dennis Morris, Quality Manager, Halyard Health, Inc., concerning the request to amend Nuclear Regulatory Commission (NRC) Exempt-Distribution Materials License No. 10-23980-01E for the purpose of changing the name from Kimberly-Clark Corporation to Halyard Health, Inc.

We currently do not have sufficient information to continue our review of this request. Although the information provided indicates that only the name of the company has been changed, as opposed to a change of control, the license reviewer has a responsibility to determine the exact circumstances that led to the change. Please note that the Code of Federal Regulations, Title 10, Part 30, Section 30.34(b), states: "No license issued or granted pursuant to the regulations in this part and parts 31 through 36, and 39 nor any right under a license shall be transferred, assigned or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of any license to any person, unless the Commission shall, after securing full information, find that the transfer is in accordance with the provisions of the Act and shall give its consent in writing."

NUREG-1556, Volume 15, "Consolidated Guidance About Materials Licenses: Guidance About Changes of Control and About Bankruptcy Involving Byproduct, Source, or Special Nuclear Materials Licenses," contains guidance concerning changes of control. This document is available on the NRC's web site at:

<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v15/>

Specific information about changes of control is provided in Chapter 5 and Appendices C, D, and F. Please review this information to determine whether this request does or does not involve a change of control, and then respond accordingly. A copy of the guidance in Appendix F is provided as an enclosure to this letter.

Also, please provide a copy of the Halyard Health, Inc. possession & use license from the State of Arizona, and/or a copy of correspondence to indicate that the state has approved its possession and use of byproduct material.

Any correspondence regarding this amendment application should reference mail control number 585514.

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in NRC's Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

If you have any questions, please contact me at (301) 415-5477 or electronic mail: richard.struckmeyer@nrc.gov.

Sincerely,

/RA/
